

Volunteer Opportunities

Volunteers benefit our school in a number of ways, including improving school climate, student learning, and providing examples of charity and service for students. Volunteerism is a necessity so that we may continue to offer the variety of quality programs that benefit your children. Our volunteer program is structured around a "Volunteer Contract" that we ask each of our families to sign. Twice a year (during the first week of school and again during spring registration), we will provide our families with a list of specific volunteer tasks that we need assistance with. Parents are asked to select one or more tasks that they would be willing to help with. Each family is also required to sign a "Volunteer Contract" that indicates their commitment to help with their selected tasks.

We have a large variety of volunteer tasks for parents to select from, including some that can be done during the summer or from home. A list of these tasks, along with a description of the job and its timeframe, is sent home to each family so they can select which activities would work best with their family's schedule.

For parents wishing to work with the students in a school atmosphere, each is required by the Diocese of Gaylord to complete the SAFE Environment Program. All volunteers working with students at least 8 hours a month are required to complete the "Shield the Vulnerable" course (either in person or on-line). A background check and fingerprint scan are also required to ensure the safety of our students. For more details on the program and the necessary forms, please click on the links below.
