

LEGO Robotics

This program helps students foster an interest in science and technology while promoting teamwork and imagination. All this combined with the fun of LEGOS! Students work in pairs using school computers and the LEGO "WeDo Robotics" sets to program simple machines. After mastering this level, students will move on to the LEGO "Mind Storm" curriculum.

Who: Students in grades 2 - 7

When: Second and fourth Monday of each month, 3:15 - 4:30

Where: Students meet in the third grade classroom or the computer room.

Fee: There is a \$5.00 fee for each meeting (to cover the cost of LEGO Robotics supplies).

Contact: Mrs. Lake or Mrs. Sherman at the school
